

New prospective students are assessed before the start of the courses in order to place them in class-groups at the correct level of French.

Through lively and stimulating activities, children of primary school age build up a broad and lasting knowledge of the French language. Classes closely follow children's development and abilities. Our teachers are all native French speakers and experienced in working with children. Our communicative approach ensures that every child is given ample opportunity to actually speak French.

Class format

Activities are varied and stimulating and include a range of fun activities suited to the various age groups, such as role-plays, mimes, songs, arts and crafts, board games and team projects. A variety of material is also used in class, such as pictures, audio and video tapes, CDs and DVDs. While vocabulary is important, we also aim to give children the communicative skills that will enable them to express themselves in French.

Class rules

Despite the playful nature of our courses, certain rules need to be followed so that class-time is productive and enjoyable:

- Children should bring a special French copy and folder to class every week and also a pencil case with markers, crayons or colour pencils, a pencil, a rubber, a ruler, a pair of scissors and a stick of glue.
- Children should behave in a manner conducive to learning and be respectful to their teacher.
